Course Description:

Spinning rings are both contemporary and mystical. Created from two silver rings; the small middle ring spins around the wider inner band encircling the finger. The spinning motion is perfect for meditation and reducing stress. Join us to create a unique piece of silver jewellery that will be a joy to wear or make a perfect gift and learn a range of jewellery techniques in one day. Suitable for beginners and more experienced makers

Initially inspired at night school and by a visit to the creative town of St. Ives, **Heather Fox** spent four years at North Wales School of Art studying for a degree in Jewellery and Metal Work. Whilst at college, she set up her own Silver Jewellery business in 2007. Heather has exhibited her jewellery in a wide range of galleries and prestigious craft fairs, as well as selling on-line. She also started to teach part time on evening classes and discovered she had a natural talent. She has now opened her own successful studios in Warrington and runs classes there.
